

AFI's NEW *Top Fuel* fuel pump is the culmination of years of testing and development. The *Top Fuel* pump progressively controls your fueling needs as you increase the throttle.

Our innovative design allows the pump to operate nearly silent .

This feature, beneficial for street cars, keeps the focus where it belongs—
on the sound of the engine and exhaust.

Our *Top Fuel* pump is also sensitive to boost, assuring that fuel is there when you need it.
